ABOUT NEWPORT WATER

We eliminate plastic bottles – *permanently*

Caribbean-Wide
OPERATIONS

800+
CLIENTS

3,000+
MACHINES IN FIELD

Traditional ways of accessing drinking water can be expensive, inconvenient, and wasteful.

At Newport Water, we provide a cleaner, more effortless way to hydrate, delivering sustainable water solutions for offices, hospitality spaces, institutions, and homes across the Caribbean.

No lifting heavy bottles. No storage concerns. No plastic waste.

Just pure, refreshing water delivered through seamless, reliable systems designed to fit effortlessly into your environment.

In an era *focused* on well being, innovation, and environmental stewardship, we are leading a smarter way forward and transforming how the Caribbean thinks about, experiences, and enjoys water.

OUR
VISION

To be the most trusted, impactful brand in water with successful Caribbean-wide operations.

Bottle-less Water Dispensers

Our Bottle-less Water Dispensers offer a convenient, eco friendly alternative to traditional bottled systems.

Designed for offices, hospitality spaces, and homes, they deliver freshly filtered water directly from the mains supply, making hydration simple, hygienic, and efficient.

With advanced filtration, sleek design, and low maintenance operation, they provide a seamless solution for modern spaces, particularly offices and high traffic environments.

They reduce plastic waste, eliminate storage needs, and lower operational costs while ensuring a consistent supply of clean, refreshing water.

Less plastic. Less hassle. More water, made easy.

In-Wall or On-wall Bottle Fillers & Fountains

Designed to make hydration simple, hygienic, and effortlessly accessible, our bottle fillers and fountains offer a smarter alternative to traditional water access points.

Perfect for schools, offices, gyms, healthcare facilities, and public spaces, these systems provide clean, refreshing water exactly where it is needed.

No lifting. No storage. No plastic waste.

With sleek wall mounted or in wall designs, they integrate seamlessly into any environment while promoting sustainability and everyday convenience.

Built for reliability and ease of use, they deliver a consistent flow of purified water while reducing maintenance concerns and supporting a cleaner, more sustainable future.

Pure water, made easy.

Water Softening, Purification & Filtration Systems

Newport Water's filtration and softening solutions are designed to make healthier, better tasting water simple and accessible throughout your

UNDER-COUNTER

Our under-counter Reverse Osmosis and Ultrafiltration systems use advanced multi stage purification to remove dissolved contaminants, chlorine, and impurities at the source, delivering clean, refreshing drinking water on demand.

WHOLE PROPERTY

For whole property solutions, our Water Softeners reduce hard water minerals such as calcium and magnesium, helping to prevent scale buildup while protecting plumbing, fixtures, and appliances.

Together, these systems work seamlessly to improve water quality, extend equipment life, and enhance everyday comfort from tap to shower.

Cleaner water. Better living. Made easy.

Designing with water in mind

We work with *Building Professionals* to ensure that the convenience of pure water on tap is NOT an after thought.

Great buildings are made in the details, and water should never be an afterthought.

Newport Water works closely with architects, contractors, engineers, designers, and developers from the earliest stages to seamlessly integrate sustainable drinking water solutions into every space.

Our goal is to make hydration effortless for the end user while ensuring the design process remains simple and efficient for the professionals bringing the vision to life.

Sustainable water, made easy.
